

## SCode for Customers

With [SCode](#) you can pay for your online purchases using cash, debit or credit card at selected physical stores across South Africa.

Here's how it works:

### Step 1:

When you are ready to checkout and pay you will be redirected to PayFast, you will then need to enter your email address or cell phone number. Once you've done this you will choose the SCode payment option.

**SCode** payments are for payments made directly at these participating stores:

Please take the printed SCode barcode to one of the participating stores and complete your payment over the counter.

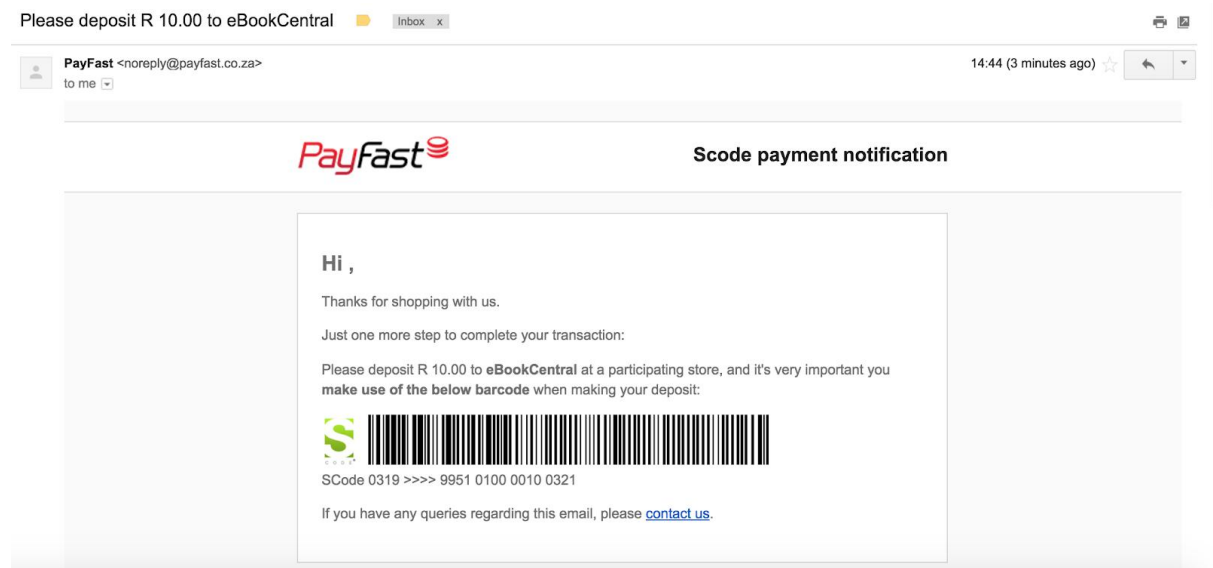

The SCode barcode will be sent to **test1234@test.com**

**I WILL MAKE PAYMENT**

### Step 3:

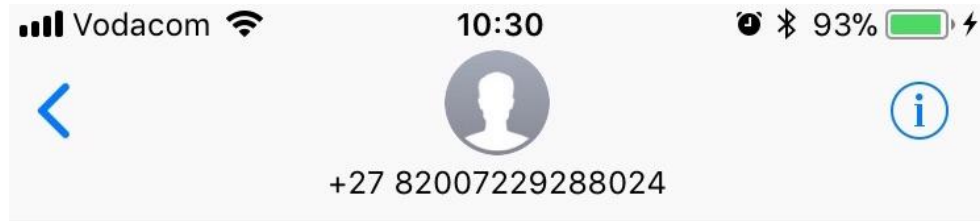

You will then receive an SMS code or an email with a barcode (**if you entered your email in step 1 you'll receive an email. If you entered your mobile number you'll receive an SMS**).

Print your email or take your mobile phone with the SMS with you to your preferred store to make payment. The email and SMS code will **only be valid for 7 days**.

### Step 4:

The cashier will scan or enter the 16 digit barcode number which was sent via email or SMS. You can pay with cash, debit or credit card. You will then receive a receipt for your payment and the merchant will be notified that you've made payment.

It couldn't be easier and safer to pay for your online purchases in person.
